## OBJECTIVE

A highly resourceful, innovative, and competent ROR developer with 6.8 years of experience in the layout, design, and coding of web-application specifically in ROR format. Possessing considerable knowledge of the MySQL & SQL Server databases. Looking for a suitable developer position with an ambitious & exciting company.

## CAREER SUMMARY :

### **Company Name - Brillio, Bangalore**

Ruby on Rails Developer    **From March 2019 to currently working**

### **Project Undertaken**

**Title: Move [FiveStreet / Leadparser]**

#### **Description:**

**Realtor.com [move.com]** is a real estate listings website operated by the News Corporation subsidiary Move, Inc. and based in Santa Clara, California. The site launched as the Realtor Information Network in 1995, serving as a closed network for members of the National Association of Realtors.

FiveStreet has 4-5 components, I am responsible for mainly FiveStreet and Leadparser applications.

**FiveStreet** is a kind of CRM where Agents [Fivestreet User] can build a network of agents [multiple teams with multiple agents ] and track down the details of the leads coming from the different systems through Leadparse application. Here Agent can set forwarding rules based on zip code, price tag, House type, and working hours to forward the details of the lead to the agent.

**Leadparser** is the heart of the fivestreet components. It is responsible for parsing and extracting meaningful leads details [Like FirstName, LastName, Address, Message, Phone, etc. ] from different types of leads templates.

Leads from the different channel [throgh Mailgun] are coming to the leadparse application and then after parsing it is distributed to different systems like fiveStreet and Salesforce.

**Duties:**

Working with Back-end and Front-end team and project management staff to capture requirements for the functional elements of projects. Also responsible for liaising with clients and ensuring that all work carried out complies with standards and guidelines.

- Managing 8 person team
